CHAPTER 1

INTRODUCTION

Section I. GENERAL

1-1. Scope

a. This technical manual is provided to help you operate and maintain Test Set, Radio Frequency Power AN/URM-182 (test set) (fig. 1-1). The

manual describes the test set, lists its capabilities and limitations, provides information regarding installation, operation, maintenance, and repair, and helps you isolate and correct troubles.

EL 6625-2718-14-TM-1

Figure 1-1. Test Set, Radio Frequency Power AN/URM-182.

b. This manual contains instructions which cover operator maintenance, organizational maintenance, and direct support and general support maintenance (appendix B). Appendix C contains a maintenance allocation chart (MAC) which prescribes the maintenance functions that are allocated to each category of maintenance. You must check the MAC before performing maintenance functions to insure that the tasks are in line with the capabilities at your category of maintenance. Refer troubles that are relegated to

higher categories of maintenance levels to the required category.

1-2. Indexes of Publications

a. *DA Pam 310-4*. Refer to the latest issue of *DA Pam 310-4* to determine whether there are new editions, changes, or additional publications pertaining to the equipment.

b. *DA Pam 310-7*. Refer to *DA Pam 310-7* to determine whether there are modification work orders (MWO's) pertaining to the equipment.
